1. Corporate Information

Internet of Things Inc. (formerly HTN Inc.) ("the Company" or "IoT Inc.") was incorporated on September 27, 1994. The principal address, registered office, and records of the Company are located at 151 Bloor Street West, Suite 703, Toronto, Ontario, Canada, M5S 1S4.

On May 14, 2015 the Company received approval to transfer its listing from the NEX to the TSX Venture Exchange following the closing of the Change of Business Transaction between the Company and Double Door Communications Inc. ("Double Door"). In conjunction with the Change of Business (COB), the Company raised a total of $525,000 in a private placement financing as convertible debenture and the shares of the company were listed as a Tier 2 issuer on the TSX-V.

The COB involved the acquisition of all of the issued and outstanding common shares of Double Door by the Company. As consideration, the Company issued an aggregate of 15,000,000 common shares to the former shareholders of Double Door, of which 5,000,000 common shares are subject to a performance escrow agreement between the vendors and the Company.

Concurrently with the closing of the COB, the Company completed a private placement financing of $525,000 of convertible debentures (the "Convertible Debentures"). The Convertible Debentures have a maturity date of two (2) years from the date of issuance and pay interest at the rate of 12% per year, calculated and payable quarterly in arrears. All amounts owing under the Convertible Debentures are secured by a fixed and floating charge against the assets of the Company.

Concurrent with the closing of the COB, Double Door is now a wholly-owned subsidiary of the Company. The Company continued under the Business Corporations Act (Ontario) ("OBCA") and changed its name to Internet of Things Inc. Upon the continuance becoming effective, the Articles of Continuance of the Company under the OBCA replaced the Articles of the Company under Alberta legislation, which among other things implemented By-law No. 1 as the general by-law of the Company. Further details can be found in the management information circular for the Company's shareholder meeting held on January 13, 2015, which is filed under the Company's profile at www.sedar.com.

The Company is an emerging technology company in the IoT space. The digital interconnection of billions of devices around the world presents one of today’s most dynamic business opportunities, incorporating industry trends such as social and mobile communications, data analytics, cloud computing and beyond, enabling early-adopters limitless versatility. Internet of Things Inc. is focused on bridging that gap by leveraging management’s extensive background in information technology and ability to develop and commercialize early-stage technology applications.

The accompanying financial statements of the Company have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business.

These financial statements do not include any adjustments to the carrying values of the Company’s assets, liabilities, and expenses, or to the related statements of financial position and of loss and comprehensive loss, that would be necessary if the going concern assumption were inappropriate. Such adjustments have not been quantified by management but could be material.

All of these outcomes are uncertain and cast significant doubt over the ability of the Company to continue as a going concern.
